11. (Internal Use Only - JSW) Talked with Mr. Robert Smart, House Armed Services Committee staff, who also inquired concerning the intelligence matter mentioned by Representative Edna Kelly at the Rules Committee hearings. I explained the background and Mr. Smart suggested very strongly that Mr. Kilday should be briefed at some point. I also discussed with him the possibility of the DCI appearing before the full Armed Services Committee indicating Mr. Vinson's strong no when Mr. Arends had raised the point. Smart stated that this was primarily for the purpose of protecting the Agency. He indicated he would be glad to raise the matter with Mr. Vinson if we desired. He suggested several possibilities: (a) appearance before the full Committee despite the precedent; (b) appearance before the Kilday Subcommittee but with Mr. Vinson and Mr. Arends present; and (c) appearance before the Kilday Subcommittee which he has been endeavoring to set up for some time. I said I would look into the matter and advise.
